

RESUME APPLICATION

Applicant Name: Jose Mari B (Bulawan) Delfin

Contact Number and Email Address: (+63) 9225205353 (SUN) / binarymako@snowkel.us

Place of Residence: Lot 3, Block 5, Southwinds Subdivision, Kimba Cansojong, Talisay City, Cebu.

Objective:

To greater extend my knowledge towards things I do not know, I may be a Jack of all Trades but I have my own weaknesses too including things I do not know yet or are out of my Skill Boundaries. With proper guidance I may become Knowledgeable enough for my Future endeavors to come. And with that being said, I am currently fluent enough with any type of Job I might encounter including this Interview.

Education:

Tertiary Education:

Asian College of Technology (Finished 5 Years) / Talisay City College. (2 Years – Graduated there)

Secondary Education:

(First 2 Years) Cebu Institute of Technology / (Finished) Highschool on St Dominic's School.

Primary Education:

Cebu Institute of Technology. (Grade 1 to Grade 6, Loyalty Award)

Experience:

Application Letter:

I'm going to admit I have no work experience when it comes to Office Works (first time) however through Talisay City Hall (Job Contract, 5 months) only Knowledge about Home-based Projects, School Web Assignments like CSS / HTML Front - End but my favored Computer Programming Language is Preprocessor Hypertext Protocol (PHP), I started PHP back in 4th year Highschool wherein a Neighbor Friend introduced it first to me via Tizag. Form Requests and Serialization's including Validation's then Database Management. I also know how to connect Network Connections like a LAN and WAN Network for Home-based Setups like a Small Office Table, Including Document Encodings and RJ45 / UTP Cable Wirings – For PHP I had a wide range of Knowledge about WebArtisan and Programming on Ubuntu / Debian except Centos which Includes basic MVC and Routing, and then PHP Extension Writing using Native C or Machine Code via PHP 5.6 (before). With this being said just point me to the right directions and I'll showcase my skills of how it can be done the proper way.

My Skill Sets:

Preferred Back-End: PHP (Laravel/Native) and PHP Extension's writing using Native C.

Preferred Front-End: CSS / HTML / JavaScript and for Mobile: Onsen IO using HTML5.

Preferred Database: MySQL (before), MariaDB (now), also Remote SQL Setups.

Preferred Skill Set Operations: Database Management, MVC Routing and OOP, Front-End.

Other Skills: Network Operations and Straight Through / Crossover LAN Networking.

Finished Projects:

Website (CV): [Curriculum Vitae](#)

Website (Resume): [Resume](#)

Most of my Online Works are found on GitHub:

<https://gist.github.com/binarykorra>

<https://github.com/binarykorra>

A snippet of my Developer Experience:

School Portal like Arellano University, finished it on 2 weeks deadline.

(small portion to dev-side which is database security)

PHP Developer Tools:

<https://www.github.com/binarykorra/php-dev>

Corsair CSS Text Portrait Generator:

<https://corsair.snowkel.us>

I won't state most of my PHP works here, since they are just plain algorithms. I however can recode the Whitespace Filter through PHP Regex if you wish.

Yours Truly:

Jose Mari B (Bulawan) Delfin
